THIS UPDATE: **31 JANUARY 2025**

Welcome to the **groundhog** Replacement Parts catalogue

We hold in stock an extensive range of genuine **groundhog** replacement parts and accessories for our mobile, static & toilet models, everything from the smallest bracket to a water heating system, including a full range of in-house manufactured parts.

How to order

- 1. Select a spare part**
 Each genuine Groundhog replacement part is identified by a unique Product Code.
 When placing an order, please specify the code and quantity needed, along with the unique Groundhog serial number - this can be found welded on the lower rail of your unit.
 By providing this serial number, it will enable our parts team to promptly and accurately fulfill your order.
- 2. Contact us**
 Get in touch with our dedicated parts team by calling **01639 641166** or emailing **parts@groundhog.co.uk**
- 3. Service & Installation**
 If installation is required, we have total UK coverage of specially trained welfare service engineers.
- 4. Deliveries**
 If your order is received by 1:30pm, our best endeavour is to deliver next day mainland UK.*

* This does not apply to Groundhog manufactured parts. Free delivery next day for orders over £150 (single package only).

Quality after-sales customer care & onsite support.

Whether you require assistance with maintenance, repairs, or upgrades, our dedicated professionals possess the expertise to address your requirements promptly.

Groundhog's support team consists of specialist welfare engineers located conveniently across the UK, ensuring quick and efficient support whenever it's needed.

INTELLIGENT POWER

iRange hybrid power revolutionising welfare accommodation.

Owners and end users are impressed by the near-total reduction in carbon emissions, running costs, and noise pollution. No wonder, respected rental industry authorities have honoured the iRange with an array of prestigious green awards and nominations.

The iRange eliminates the need for fuel throughout the summer months and can achieve up to 100% reduction in carbon emissions - only running when the battery levels require the utilisation of the on-board power unit.*

Environmental features give owners and end users savings by way of reduced fuel usage, 90% reduction in onboard power unit servicing, longer running life, fewer breakdowns and massively reduced noise pollution.

Helping you achieve your carbon reduction goals - intelligently.

* During the winter period and night use the power unit will still be required, with a reduction in running of up to 90% when compared to our Fusion Pulse welfare unit.

THE GROUNDHOG ANTI-VANDAL

SOLAR TOILET

The Groundhog Solar Toilet utilises solar technology giving owners and end users improved chances of winning contracts, by **greater sustainability** and **lower CO₂ emissions**.

Scan me for full product specification

Low flush eco toilet
REDUCES WATER USAGE

Waterless urinal
100% REDUCTION IN WATER USAGE

Innovation that works.

Our latest environmental features deliver a cost effective, environmentally efficient, robust & easy to use anti-vandal static solar toilet.

The **groundhog** anti-vandal Solar Toilet is robust and incredibly efficient. These units offer huge reductions in fuel usage, carbon emissions and service schedules.

Incorporating the latest environmental solar technology, the **groundhog** Solar Toilet is ideal for the ever increasing demands of the construction, rail, utility and hire industries.

Helping you achieve **realistic carbon reduction goals**
